

Meshell Ndegeocello, Fool Of Me

I remember when you filled my heart with joy
Was I blind to the truth just there to fill the space
Cuz now you have no interest in anything that I have to say
I've allowed you to make me feel I feel so dumb
What kind of fool am I you so easily set me aside

You made a fool of me tell me why
You say that you don't care but we made love tell me why
You made a fool of me
You made a fool of me

I want to kiss you
Does she want you with the pain that I do
Smell you in my dreams
But now when we're face to face
You won't look me in the eye no time no friendship no love
You say don't touch you
I can't touch you no more
Can't touch you anymore
Anymore

You made a fool of me tell me why tell me why
You say that you don't care but we made love tell me why tell me why
You made a fool of me tell me why babe tell me why such a fool
You made a fool of me a fool of me tell me why tell me why
