

# Messy Marv, Say Luv

(feat. J. Valentine)

Yo I see you looking but is it all good  
I'm the king of the city, one of them boys in the hood  
Dat done did a little time like doughby  
She standing there looking at me like "you go boy"  
She had on timbs, waistline real skinny  
But when she take off her clothes her body real pretty  
Would you ride if a nigga could'nt buy you chanel?  
Get you the prada and put the paint on your nails?  
Fuck you real good and put you in a coupe  
Ballaz spend money like a nigga shooting hoop  
I'm just saying shorty I'm livin that lifestyle  
New jack city yeah I'm livin that right now  
Wanna ride a little something, show me the way  
We can jump on a plane and I can show you the bay  
And when I locked something down it's usually locked  
And they usually get canarys for their jewelry box  
Say love Say love Let me talk to you for a moment  
Get to know you, let me show you I'm the one you need  
Say Love, Say Love, Is it alright if I  
Spend some time get you fly cause I wanna make you mine  
It's a yadadamean, I'm over 21 I just look 19  
Wanna get it poppin I already know  
Body telling you yes mind telling you no  
I spend 10 thousand on champagne  
Them bright yellow stones all in your choke chain  
Let's count cash for a livin  
Would you hold a nigga down if I was in and out of prison  
You know sometimes it get that real  
Sometimes you can't bargain gotta take that deal  
She had tattoos on her butter soft skin  
Bobby valentino for me one time again  
Titties like keisha, back bangin like free  
Can't tell if I kiss on you ma that ain't me  
When I lock something down it's usually locked  
And they ususlly get canarys for their jewelry box  
Say love Say Love can I talk to you for amoment  
Get to know you let me show you I'm the one you need  
Say love Say Love is it alright if I  
Spend some time, get you fly, cause I wanna make you mine  
Baby come and take this ride, My s5 get you fly  
Show me all the things you like, I'll do them for you  
You won't need no x with me, I'll be all the extasy  
That you'll ever need
