

# Mest, Beer

we're drinking our lives away  
I think it was better yesterday  
that was when I had a hold on life my goals and my dreams  
a straighter mind a straighter way to think you know what I mean

but now it's gone  
now it's gone  
now it's gone and I want it back  
it's motivation that I lack  
and the will power that I need  
to set me free

it makes my life a little easier  
it takes away my daily pains  
so what if it makes me think of the bad  
that's not the only thing I've had  
only on my mind hears my confessions  
but i was wrong  
i was wrong  
and now its gone  
and i want it back  
its the motivation i lack  
and the will power that i need  
to set me free

but now it's gone and I want it back  
it's motivation that I lack  
and the will power that I need  
to set me free  
to set me free

but now it's gone and I want it back  
it's motivation that I lack  
and the will power that I need  
to set me free  
i wanna be free  
to set me free  
i wanna be free
