

Mest, Forget You

[VERSE:]

What went on last night
Was it just another stupid fight
Will we be again
Or will we both regret this in the end

[CHORUS:]

Why can't I forget you and everything you do
It's so hard to do
Why can't I forget you and everything you do
It's so hard to do

[VERSE:]

Consider me your friend
Until you do that stupid shit again
I believed all you told
Then you left me hanging out so cold

[CHORUS:]

Why can't I forget you and everything you do
It's so hard to do
Why can't I forget you and everything you do
It's so hard to do

[BRIDGE]

[CHORUS:]

Why can't I forget you and everything you do
It's so hard to do
Why can't I forget you and everything you do
It's so hard to do
Why can't I forget you and everything you do
It's so hard to do
