

# Mest, Fuct Up Kid

The words you say I'll never listen to  
Cause if I did I'd be just like you  
Cause you're my enemy and soon you're gonna see  
You gotta be yourself to be happy  
Cause you're not, you're not

Fuct up visions in my head  
I'm a fuct up kid is what they said  
But at least I know all the things that I want  
And it's all the things I got

Cause you're so quick to point the finger  
You act like your shit don't linger  
It feels good when you see someone else in a rut  
It gives you confidence it makes you happy but  
You're not, you're not

Fuct up visions in my head  
I'm a fuct up kid is what they said  
But at least I know all the things that I want  
And it's all the things I got

[Bridge:]  
Cause you act as if you see my way  
But I know that you won't leave today  
Cause change is what you fear the most  
That the end is getting close  
And the end is getting close  
And the end is getting close

Fuct up visions in my head  
I'm a fuct up kid is what they said  
But at least I know all the things that I want  
It's all the things I got

Fuct up visions in my head  
I'm a fuct up kid is what they said  
But at least I know all the things that I want  
And it's all the things I got  
And it's all the things I got  
And it's all the things I got
