Mest, The Last Time

[CHORUS:]
Cuz its the last time
I ever want to see you
It's the last time
I ever want to hear you
It's the last time
I'm getting out of this for good
And it's the last time

[VERSE:]

If at all you taught me anything You taught me pain and hurt Now can you tell me DOo you ever feel guilt Hidden pain that you built Inside of your heart

[CHORUS:]

Cuz its the last time
I ever want to see you
It's the last time
I ever want to hear you
It's the last time
I'm getting out of this for good
And it's the last time

[VERSE:]

When I think all the thoughts come to my head Of the last words that you said They're stuck inside of me Then I say this wont happen to me again Three months later you're my friend And its happening again Go

[BRIDGE:]
I will not cry
Alone as I lye
I said what about our past
You said 'stick it up your ass'
She shut the door with those words said
Were you thinking of me
Last time you were in bed yeah
It's the last time
It's the last time

[CHORUS:]

Cuz its the last time
I ever want to see you
It's the last time
I ever want to hear you
It's the last time
I'm getting out of this for good
And it's the last time
