

# Metallica, The Mechanix

Imagine you were at my station  
And you brought your motor to me  
Your a burner yeah a real motor car  
Said you wanna get your order filled  
Made me shiver when I put it in  
Pumping just won't do ya know luckily for you  
Who ever thought you'd be better  
At turning a screw than me  
I do it for my life  
Made my drive shaft crank  
Made my pistons buldge  
Made my ball bearings melt from the heat  
We were shifting hard when we took off  
Put tonight all four on the floor  
When we hit top end ya know it feels too slow  
I'm giving you my room service  
And ya know it's more than enough  
Oh one more time ya know I'm in love
