

Metric, Down

JIMMY:

I wondered if you could come and help me
I want to get from here to there

EMILY:

I saw your face looked down tonight
I only hope that you're alright
I know you think its always you
Need some time alone, need some time alone

To feel down
To feel down

After tonight, another day
A chance to feel a different way
The sun is slowly changing sides
Still, sorrow in your eyes
Sorrow in your eyes

So feel down
So feel down

Heavy hearts swaying low
Feel down, let it go

So feel down
So feel down
Feel down
So feel down

JIMMY:

I wondered if you could come and help me
