

Metronomy, The Upsetter

I've gotta beam a message to you
Straight from the satellite
'Cause girl we're meant to be together
Yeah girl we're meant to be together
And back out on the Riviera
It got so cold at night
I've gotta beam a message to you
I've gotta beam a message to you
I've gotta beam a message to you

I should've known from the call that you let out
You're not alone and you're still in love
And everyone says that I'm the upsetter
But I'm alone and we're so in love
I've got it bad and now this heart beats black
So black
Oh yeah

Reliving 1992 here
Playing Sleeping Satellite
Playing Prince and Deacon Blue yeah
Playing I Will Always Love You yeah
But when I think of me and you
Get shivers down my spine
I've gotta beam a message to you
I've gotta beam a message to you

I should've known from the call that you let out
You're not alone and you're still in love
And everyone says that I'm the upsetter
But I'm alone and we're so in love
I've got it bad and now this heart beats black
So black
Oh yeah

I should've known from the call that you let out
You're not alone and you're still in love
And everyone says that I'm the upsetter
But I'm alone and we're so in love
I've got it bad and now this heart beats black
So black
Oh yeah

You're really giving me a hard time tonight
You're really giving me a hard time tonight
Why you giving me a hard time tonight?

You're really giving me a hard time tonight
You're really giving me a hard time tonight
You're really giving me a hard time tonight
Why you giving me a hard time tonight?

You're really giving me a hard time tonight
