

Mia Rose & Ana Free, Crash and burn

Here we are once again
Waiting for the time to end
Looking back looking on
Tried to fight
But it was wrong
Things to do things to say
Who were you to treat me that way
I tell you
I always knew I was right
When it came to you
When it came to me
We were so long gone
It was make believe
I... I...
Crash and burn
Nananah
You walked the line
While you were mine
You took the chance
And fell behind
You're pitiful, shameful
Should've realised
Through it all
I'd rather be alone then unhappy
I tell you
I always knew I was right
When it came to you
When it came to me
We were so long gone
It was make believe
I... I...
Crash and burn
What about the nights you left me?
What about the time I lost on you?
Heah,
What about the things I bought you?
None of it means anything to you
Here I am, here I go
Years along and now you know
What goes around comes around
Lesson learnt and now you've found
That you're feeling all alone and unhappy
I tell you
I always knew I was right
When it came to you
When it came to me
We were so long gone
It was make believe
I... I...
Crash and burn
You're feeling all alone and unhappy
You're feeling all alone and unhappy
Lesson learnt!
