

Mia Rose, Just Us

Sometimes in the dark of the night brings confusion
you cant find the right from wrong you live for
With everything changing, your feelings inside
you wanna find comfort in somebodys eyes
travelled through passed pain
and finally what I found is
That with you everything just melts away
and its just us
Just us.

Sometimes when feel yourself slipping away
You cant find the truth from the lie you live for
With everything moving, your fears come alive
you wanna find true love, in somebodys eyes
wandered through hurricanes
and finally what I found is
That with you everything just melts away
and its just us
Just us.

That with you my true love will always remain
Just us
Just us
with you my true love will always remain
Just us
Just us
Its Just us
Its Just us
