

# Miami Horror, I Look To You (ft. Kimbra)

See her world lit so bright  
See her bird take flight  
See her face wild and charged  
See her quickened heart

So if we fall, imagine that  
Imagination's ?  
So here I hold for what you are  
See all that I'm looking for

I look to you

The future we've found  
To stay here on higher ground  
/2x

I look to you

I wanna change the future as I look into your eyes /4x  
Future as I look into /2x

The future we've found  
To stay here on higher ground  
/4x

I look to you /2x

The future we've found  
To stay here on higher ground  
/2x

I look to you
