

Micah P. Hinson, I Still Remember

you're the one that said
what doesn't kill you will make you stronger
anyway, it doesn't bring you the confidence
to make you stay
again with me tonight
again with me tonight
i was the one that said what doesn't kill you
will make you stronger, anyway
it doesn't bring me the confidence
to make me want to stay
again, with you tonight
again, with you tonight
i still remember thinking
i wish i could know you for an eternity
or at least until we grow old
and i still remember thinking
how lovely it could be
to hold you for eternity
or at least until you fell asleep, fell asleep
i still remember thinking
i wish i could know you for an eternity
or at least until we grow old
and i still remember thinking
how lovely it could be
to hold you for eternity
or at least until we fell asleep, fell asleep
