

# MICAR, This Time It's My Life

I'm travelling on my own  
straight to a place that I know  
I let the breeze fill my soul  
and the sun will guide me home

Heh, you can hear but hope in my voice  
I'm walking straight 'cause I had no choice

This time it's all just a game  
This life will never be the same  
And I know I will keep my hope alive  
This time it's my life

Like all the [?] across the sea  
I realized what life would mean  
'cause all the guests was meant to be  
just to find the missing piece  
And you can hear but hope in my voice  
I'm walking straight 'cause I had no choice

This time it's all just a game  
This life will never be the same  
And I know I will keep my hope alive  
This time it's my life
