

Michael Anderson, Be Not Afraid

There's a candle in the window
There's a flame that burns bright for you
Though you're walking in the darkness
There's a light to see you through

CHORUS:

So be not afraid The Lord is with you
Be not afraid He is your guide
He'll never leave you He won't forsake you
Be not afraid God's on your side
You've come so far Down the road now
Trying to find your own way home
Through the valley past the shadows
Do you think you got here alone
As you face this time of trouble
There is nothing that you can do
Keep walking with your eyes upon him
And He will find your way for you
