

Michael Ball, If You Need Another Love

(John Miles)

I heard he let you down again
He left you crying
Oh is he still lying to you
I wish I was there to ease the pain
Just to hold you
Honey I've told you
Time and time again
There's no sense in holding on
You've got to find a way
To open your heart to someone
Chorus:
If you ever need another love in your life
If you ever need someone
Just call I'll be there
If you need another love in your life
Let it be me
I'll show you just how good my love can be
Feelin' so alone again
So lost and lonely
Honey it's only gonna hurt awhile
Only time will heal the pain
That cuts so deep inside
Oh baby, nothing lasts forever
Chorus
I'll take good care of you
If you put your trust in me
Oh I'll never ever break your heart
I will be yours forever
Baby it's now or never
Just call I'll be there
If you need another love in your life
Let it be me
I'll show you just how good my love can be
Show you just how good my love can be
