

# Michael Ball, No One Cries Anymore

(Don Black/R.Kerr)

Have you never heard of  
Talking things through?  
Working things out?  
Pulling together?  
Nowadays emotions fly by so fast  
No one bothers mending a heart  
They find another  
A busy world  
Where no one stops to catch their breath  
That's not my kind of world  
It scares me to death

Chorus:  
No one cries anymore  
No one tries anymore  
They leave the dance far too soon  
I won't go running out that door  
I'm staying right here on the floor  
With you...

So we're going through a bad patch, that's all  
Everybody falls now and then  
We can still make it  
There is more to us than hello, goodbye  
Let's not be fools  
Our love can take it  
A busy world  
When no one stops to catch their breath  
That's not my kind of world  
It scares me to death

Chorus

They leave the dance far too soon  
I won't go running out that door  
I'm staying right here on the floor  
No one cries anymore  
No one cries anymore
