

Michael Bolton, Let's Make A Long Story Longer

Everybody's lookin' for a happy ending
Before the real story even begins
It's so easy to pretend you're not pretending
Till the naked truth comes walkin' on in

But we ain't runnin' when the truth gets hot
That's how ya find out just how much you've really got

CHORUS

Let's make a long story longer
Let's make this strong love a little bit stronger
Our star is gonna shine, shine even brighter
Believe what we feel, keep it real
Make a long story longer

The seed of love is so deeply planted
Inside the heart is where it lives and grows
We'll keep it safe 'cause we don't take it for granted
Let the hard rains fall, let the cold wind blow

Every storm is just a lesson to learn
Just bring us closer with every page we turn baby

CHORUS

Ya gotta stand the test of time
If ya wanna keep the treasure you find
Some can only dream about forever
But look at us baby, we're creatin' it together

CHORUS

Let's make a long story longer
Let's make this strong love a little bit stronger
Baby, live what we feel, keep it real
Make a long story longer
Let's make a long story longer
