

# Michael Bolton, Start Breaking My Heart

Everynight, I would lie awake  
Alone in my bed  
Think of you, then I'd cry myself  
To sleep, that's what you said  
You were so sure of yourself  
By now I'd be out of my mind  
So where is the madness  
The pain and the sadness  
You swore you'd be leavin' behind

CHORUS:

Start breaking my heart  
Start bringin' me down  
Start breaking my heart  
Like you said you'd do to me  
Start breaking my heart  
Tearin' me apart, breaking my heart  
Start breaking my heart

Lookin' back, you were good at diggin'  
Into my soul  
All the time, oh I should've understood  
You just needed control  
Finally you realized, how much you were  
Foolin' yourself  
Ya thought you'd desert me  
Thought you could hurt me  
By leavin' me for somebody else

CHORUS:

You're breaking your promise to me  
You swore I'd be fallin' apart

CHORUS:

You've been gone girl, I don't even  
Know how long  
Come on and prove me wrong  
You can start by breaking my heart  
Breaking my heart, breaking my heart
