

Michael Bolton, 'Til The End Of Forever

(Michael Bolton/Liz Sharpe)

Now there's something my daughter
That I need to tell you
And there's no easy way on your heart
The truth is your mother and I have decided
We're better off living apart
But nothin's gonna change between you and me
We'll only grow stronger in time
As sure as the river will run to the sea
You can always come runnin to this love of mine

Til the End of Forever
The last day of never
And through all of your life in this world
Promise me you'll always remember
My love will follow you anywhere
Til The end of forever I promise I'll always be there

We'll look back at the pieces
That we put together
And the puzzle will mean so much more
I'll be right where ya found me
Wrapped round your finger
Like I've been since the day you were born

And who'll walk beside you
When ya walk down the aisle
When true love is takin your hand
When you're lost in the eyes, of your own child
You'll remember this moment and you'll understand

Til the End of Forever
The last day of never
And through all of your life in this world
Promise me you'll always remember
My love will follow you anywhere
Til The end of forever I promise I'll always be there

Spread the wings of your dreams
That's my only prayer
To Love every moment from sunrise to sunset
In your heart is my heart... I will be there

Promise me you'll always remember
My love will follow you anywhere
Til The end of forever I promise
Til The end of forever I promise
As God is my witness I promise I'll always be there

So promise you'll always remember I'll always be there
