

# Michael Bublé (Michael Buble), I'll Never Not Love You

Every time my hand reaches for yours  
I feel the hesitation, I'm sure that you're not sure  
Every time your lips are kissing mine  
I taste the indecision, it's messing with my mind

I know there's a part of you that's terrified to love again  
But I promise till the end

I'll never run, leave you behind  
I'll never hurt you like he hurt you  
I'll never make you cry  
I'll treat you right, I'll stand by you  
And no matter whatever happens  
I'll never not love you

All of me is diving in the deep  
While you're standing at the shoreline, the waves are at your feet  
Trust will never happen overnight  
But if you give me more time, I swear you'll see the light

I know there's a part of you that's terrified to love again  
But I promise till the end

I'll never run, leave you behind  
I'll never hurt you like he hurt you  
I'll never make you cry  
I'll treat you right, I'll stand by you  
And no matter whatever happens  
I'll never not love you

Oo-oo-oo-oo  
I'll never not, I'll never not

I know there's a part of you that is terrified to love again  
But I promise till the end  
Yeah, I promise till the end

I'll never run, leave you behind  
I'll never hurt you like he hurt you  
I'll never say goodbye  
I'll treat you right, I'll stand by you  
And no matter whatever happens  
I'll never not love you

Oo-oo-oo-oo  
I'll never not, I'll never not love you
