

Michael Fredo, As Long As I Live

I believe in dreams
Still I hope we're not a fantasy
Lady you're the one that I need
I believe in you, girl
I'm praying you'll believe in me
Baby, won't you follow my lead

Girl, the only thing I'm longing to show you is true love
And how good it feels
Won't you open up your heart and let love in
Then you'll hear me say...

CHORUS:

As long as I live, I give you my word
I'll be your everything if you be my girl
As long as I live, I'll give my heart to you
And you will never want for anything
As long as I live

I can feel your doubt, he left, he left you in a world of pain
Baby I've been there before
Still I believe in love and I want to give it one more try
Maybe you'll feel the same
