

# Michael Fredo, Candy (Make It Right)

You always gave the very best of you  
Love so unconditional  
I've always been anything but true  
But when you said you just can't stay  
You can't take another day  
'Cause it's slowly tearing up your heart

Baby, now I know if I ever let you go  
Comes a point where it just makes no sense  
That's where we are now  
Though love is there, the pain is too intense  
You can't pretend

Girl I apologize, baby look into my eyes  
You'll know that what I say is true  
I swear this time around I will never let you down  
My heart and soul is only for you

Candy, baby, give me one more chance to make it right  
Can I still be the only man you want inside your life  
Candy, I'm beggin', won't you please let me make it right

Every alibi nothing but a lie

Girl you cried, really tried to make it work  
Still I know I could mend your heart for good  
Give me a chance to make it right
