

Michael Gungor, Move Me

And You move me
Just when I thought that I had it all together
And You move me
Just when I thought things could not get any better

I am ready come and move me once again
I am ready come and move me once again

:chorus:

And You move me
Closer to You closer to Your heart
I see clearer so much clearer than before
And You move me
Lord You move me

And You move me
From the comfort that I've come to know and love
And You move me
To experience to sovereignty of God

Come and move me once again
Come and move me once again
