

Michael Kiske, Be True To Yourself

(Kiske)

I came down

But my head went up

I had no doubts

And hope there was not

Break it loose

Spread the news

Get it loud

Make it loud

Sing it!

I got it comin there is nothing that can stop me

I feel it comin theres no limit to the free me

The sky is open and the angels sing it so clear

Be true to yourself!

I have found

I once was lost

I came round

To see what it costs

Kick it up

To the top

Theres a lot

Hear it!

Dont wanna look back, got to start tosee the future

Dont wanna hold back got to let it out and to ya

The bomb is ticking, I know its gonna blow up

Right now theres nothing, no one,

nowhere that can make it stop!

Be true to yourself!
