

Michael Kiwanuka, Black Man In A White World

I've been low, I've been high
I been soared all my life

I got nothing left to pay
I've got nothing left to say

I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man

I'm in love
And I'm still sad
I found peace, but I not glad
All my nights and all my days
I've been trying to run away

I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World

I feel like I've been here before
I feel that knocking on my door
I feel like I've been here before
I feel that knocking on my door
And I've lost everything I have
And I'm not angry, I'm not mad

I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
I'm Black Man In A White World
