

# Michael Learns To Rock, Don't Have To Lose

If we want it we just have to choose  
If we need it we don't have to lose  
I see into your eyes  
It's time to realize

If you want it I am here for you  
If you need it and you love me too  
There is no black or white  
This is no sacrifice

(Chorus)  
We don't have to lose this love my friend  
We won't make the same mistake again  
We've been restless we've been blind  
We've been going out of our minds

If we want it we could try again  
If we need it this could be the end  
Of feeling crazy  
The end of feeling sad

(Chorus)

We don't have to run  
And crash into some wall  
We don't have to let it go  
We don't have to fall

(Chorus)

We don't have to lose
