

# Michael McDonald, All We Got

(Peter Leinheiser And Michael McDonald)

It's not enough, there's never enough...

As we look out on a world  
Full of people, places and things  
They seem so important to us  
There's no harm in that girl  
But for all the joy it can bring  
We know that's not all we're gonna find  
But when it comes to you and me  
I know the most important part  
Is what we have in our hearts

Baby it's all we really need  
When all those things are never enough  
In this world of everything or nothin' baby  
Remember, this love is all we got, babe

As we travel down the road  
To make our dreams come true  
We know that things are gonna change  
But when it comes to you and me  
If we look back to the start  
When all we shared was in our hearts

We could have a house in the country  
We could drive a big fine car  
We could set our sights on tomorrow  
We could hitch a ride on the brightest star  
'cause all those things could never be enough  
In this world of everything or nothing  
Remember baby, this love is all we got  
This love is all we got, babe

When it comes to money

Fame...

Power...

People, places and things  
This love is all we got
