

# Michael McDonald, House Full Of Love

(McDonald/Harris/Farren)

Guess that we could always want for something more  
Then how much is enough  
So much for all the things we know we can't afford  
I don't need any more stuff baby  
Let everybody else rush around, fight the crowds  
Only to ask themselves why  
All I need is just some mistletoe, you and i  
Baby I'm satisfied right here in your arms

[Chorus:]

Baby, we got a house full of love  
We got a house full of love  
Might not be rich enough, baby we got love  
And that's all we really need  
We got a house full of love

So baby come to me and sit here by the fire  
And let the world rush on by  
We'll find the magic of a christmas long ago  
Just like the very first time  
Let everybody else lose their minds, wait in line  
Only to ask themselves why  
All I need is just to be with you christmas eve  
That's all the present that I'll ever need

[Chorus]

We got a house full of love now baby

All I need is just to be with you christmas eve  
That's all the present that I'll ever need

[Chorus]
