

# Michael Mind Project, Ignite

I can hear it when you breath  
I can see it in your starry eyes  
People of another kind leavin' everything behind  
Setting fire to the skies  
Like runaways in the night  
Were walking on a different road  
I will never fall apart  
Lighting up your hungry heart  
Theres a way to crack the code

We ignite  
Nothing else matters right now  
We ignite Were on fire this town yeah  
Were on fire this town yeah

Were on fire this town yeah!

I can feel it when youre close  
When your heart is beating next to me  
Will people love another kind  
Out of place and out of time  
All you got is what I need  
Running wild in the night  
Were riding on a different track  
You will never fall part  
Lighting up my hungry heart  
Now there aint no turning back

We ignite  
Nothing else matters right now  
We ignite  
Were on fire this town yeah  
We ignite  
Nothing else matters right now  
We ignite  
Were on fire this town yeah
