Michael Monroe, Make It Go Away

So sad my little one
Why always so sad
Such sorrow in one little life
Where does it all come from?

Why can't I make it go away
By just loving you
Whatever happened to hurt you so deep
You're safe with me

*Isn't it enough to love you
To make it go away
The past knows where to find you
Just make it go away*

I see you cry everyday
It's so hard to take
Facing your darkness you say
Don't worry I'll work it out

We're not fearful
We call it by it's name
You don't give it control
You tell it where to go

Take your power back
There's still some joy here for you
You know what's holding you down
Let go with me.
