

# Michael Nesmith, Dedicated Friend

Has anybody seen my power  
It is gone from where I laid it down  
I have only been away an hour  
And I saw it when I left for town  
So if you see it won't you call me promptly  
It is more than just a question of time  
It was two-tone and full-blown  
And a dedicated friend of mine

Has anybody seen my Chevy  
It is gone from where I shut it down  
I've been told that it was very heavy  
When I used to drive it into town  
So if you see it won't you call me promptly  
It is more than just a question of time  
It was two-tone and full-blown  
And a dedicated friend of mine

Has anybody here seen Jesus  
He is gone from where I laid him down  
He was almost dead from helping people  
And he asked me for a ride to town  
So if you see him won't you call me promptly  
Oh it's more than just a question of time  
He was two-tone and full-blown  
And a dedicated friend of time

They all are  
Two-tone and full-blown  
And dedicated friends of mine
