Michael Nesmith, Dedicated Friend

Has anybody seen my power
It is gone from where I laid it down
I have only been away an hour
And I saw it when I left for town
So if you see it won't you call me promptly
It is more than just a question of time
It was two-tone and full-blown
And a dedicated friend of mine

Has anybody seen my Chevy
It is gone from where I shut it down
I've been told that it was very heavy
When I used to drive it into town
So if you see it won't you call me promptly
It is more than just a question of time
It was two-tone and full-blown
And a dedicated friend of mine

Has anybody here seen Jesus
He is gone from where I laid him down
He was almost dead from helping people
And he asked me for a ride to town
So if you see him won't you call me promptly
Oh it's more than just a question of time
He was two-tone and full-blown
And a dedicated friend of time

They all are Two-tone and full-blown And dedicated friends of mine
