

# Michael Nesmith, Magic

This nite is magic  
I can tell by the stars  
This nite is magic  
With you in my arms  
It would be tragic  
If we ever part  
Tonight is magic for love

You know I love you  
Look in my eyes  
You know I love you  
It's paradise  
For me to love you  
And drift through the skies  
The skies of magic & love

If you believe it will always come true  
That's the magic of love  
I keep believing I'll always have you  
That's the magic of trust

This love is magic  
I feel it inside  
This love is magic  
There's nothing to hide  
Our life is magic  
We'll stay side by side  
And feel the magic of love
