

Michael Peterson, Two Of The Lucky Ones

(Michael Peterson/Jim Weatherly)

How did we get here?
How did we find our way?
How did we know which road to take?
What did we do right?
Was it just in the stars?
Maybe that's why some lovers survive
And others just fall apart

We're two of the lucky ones
Heaven sure smiled on us
There've always been a chosen few
Who win and love and those who lose
Baby me and you, we're two of the lucky ones

When I look around
There's sadness in so many eyes
Then I look at you and all we've been through

That's when I realize

We're two of the lucky ones
Heaven sure smiled on us
There've always been a chosen few
Who win and love and those who lose
Baby me and you, we're two of the lucky ones

Call it fate, call it destiny
Nothing can destroy a love that's truly meant to be

We're two of the lucky ones
Heaven sure smiled on us
There've always been a chosen few
Who win and love and those who lose
Baby me and you, we're two of the lucky ones
