

Michael Schenker Group, Love Never Dies

I've been looking for a reason
I've been looking for a clue
How to help me keep the promise
I once made to you

[Chorus:]

When I feel the cold wind blowing
On your endless desert miles
No matter where you're going
Love never dies, never dies

I've been stayin' on the wild side
Ever since you went away
I've been going on a night ride
Looking for a better day

When you feel the four winds blowing
On your endless desert miles
No matter where you're going
Love never dies, never dies

You can try to find a miracle
You can wish upon a star
When you dive into the wishing well
Just open your heart

[Chorus]

I've been walking on the thin line
Between the right and wrong
I've been looking for a street sign
To lead me back where I belong

When you hear the four winds calling
On your endless desert miles
Remember when you're falling
Love never dies

[Chorus]
