

Michael Sullivan, I Need Somebody

If I want to find the reason in my life
I know I need somebody
If I want to say that loving is a dream
I know I need somebody
Everytime I look around I see it clear
I know I need somebody
Everytime I see your picture in my mind
I know I need somebody
Just like the night demean the stars
I need somebody
Just like the flowers need the sun
I need somebody
When forever is shorter then my love for you
And you know I am saying is true
I need somebody
And I never said I want to be alone
I know I need somebody
And I never knew what loving was, till you
I know I need somebody
All I want is real love when I'm with you
I need somebody
All I want is you to make my life for fulfilled
I know I need somebody
