

# Michael Tolcher, Kings In Castles

People said it would go so fast  
Before you know it you'll be here  
Living life innocent just don't last  
It gets harder every year

See yourself in a place beyond today  
Yeah the future can be scary  
Just be wise to the games you play  
Don't let your spirit get buried

By then, we'll be making history  
We'll be writing fairy tales  
We'll be stars in movies  
By then, we'll be raising families, living off of memories  
We'll be kings in castles, by then

Having fun was the only rule (it's all about the fun)  
Yeah there was nothing in the way  
Being left out or being uncool (won't catch me)  
Was the hardest game to play  
People said very soon your games would end  
If you grow up like you should  
Because in this life you have to fend  
For yourself like no one else would

By then, we'll be making history  
We'll be writing fairy tales  
We'll be stars in movies  
By then, we'll be raising families, living off of memories  
We'll be kings in castles, by then

We'll be the heroes  
Oh say can you see those bright, shining stars  
Can you see those bright shining stars

We'll be making history  
We'll be writing fairy tales  
We'll be stars in movies  
By then, we'll be raising families, living off of memories  
We'll be kings in castles, by then

By then, we'll be making history  
We'll be writing fairy tales  
We'll be stars in movies  
By then, we'll be raising families, living off of memories  
We'll be kings in castles, by then
