

Michael W. Smith, Color Blind

There's not a world of difference
Out in the world tonight
Between this world of people
Red, yellow, black and white
But instead of riding a rainbow of love
We still are fighting with prejudice gloves of anger
With something to claim
But nothing to gain, so

Why can't we be colour blind?
You know we should be living together
And we'd find a reason and rhyme
I know we would
'Cause we could see better
If we could be colour blind

Somebody's just assuming
He's up to nothing good
'Cause he's not like the others
There goes the neighbourhood
What kind of world are we living in
When we judge a man by the tone of his skin
It's crazy
'Cause he has a heart
Like you have a heart and

Why can't we be colour blind?
You know we should be living together
And we'd find a reason and rhyme
I know we would
'Cause we could see better
If we could be colour blind

It'd be so fine
To be colour blind
To open our eyes
And see colour blind

I know this world would be a better place
The only race would be the human race
All of those barriers would be erased
Why can't we be colour blind?

He has a heart like you have a heart
Why can't we be colour blind?
You know we should be living together
And we'd find a reason and rhyme
I know we would
'Cause we could see better
If we could be colour blind
