

Michael W. Smith, Do You Dream Of Me

Dreams, within the still of night
On wings of hope take flight, inside of me, oh
There, upon some distant shore
We want for nothing more than what will be

And you and I, here we are
I wonder as we come this far

If I could only read your mind
Tell me the answer I would find
Do you dream of me?
And when you're smiling in your sleep
Beyond the promises we keep
Do you dream of me?

Love has found a magic space
A deep and hidden place where time stands still
Now I hold you in my arms
You know you hold my heart and always will

And you and I, here we are
And it's a wonder that we've come this far

And after all that we've been through
You've leaned on me, I've leaned on you
Do you dream of me?
And when you're smiling in your sleep
Beyond the promises we keep
Do you dream of me?

If I could only read your mind
Tell me the answer I would find
Do you dream of me?
And when you're smiling in your sleep
Beyond the promises we keep
Do you dream of me?

And after all that we've been through
You've leaned on me, I've leaned on you
Do you dream of me?

Do you dream of me?
