

# Michael W. Smith, Don't Give Up

I remember when you took a stand  
With the pearl of wisdom in your hand  
And a soul of desire  
You held your own against the world  
A lion's heart in a little girl  
So unafraid of the fire  
But those days don't last  
Sweet dreams die fast  
A stumble when you walk on the wire  
When all your friends  
Start giving in  
The flames are burning higher and higher

(chorus)  
Don't give up, Andrea  
Got the whole world at your feet  
Just keep on - holding on  
This is where you need to be

All the days that you've been spending  
Spinning while your heart's descending  
Like a stone in the ocean  
Sometimes when you think the world is ending  
It's really just a new beginning  
The other side of emotion  
But I've seen your eyes - no compromise  
When you set your mind on a matter  
Be strong through the tears  
And your sight will clear  
You're gonna get what you're after

Don't give up, Andrea  
Got the whole world at your feet  
Just keep on - holding on  
This is where you need to be

Don't give up, Andrea  
Got the whole world at your feet  
Just keep on - holding on  
This is where you need to be

Don't be surprised when the road divides  
Just take the one less traveled by

Don't give up, Andrea  
Got the whole world at your feet  
Just keep on - holding on  
This is where you need to be

Don't give up, Andrea  
Got the whole world at your feet  
Just keep on - holding on  
This is where you need to be

Don't give up, Andrea (Andrea)  
Got the whole world at your feet (I know you're gonna make it)  
Just keep on - holding on (Andre-a)  
This is where you need to be

Don't give up, Andrea (Andrea)  
Got the whole world at your feet (I know you're gonna make it)  
Just keep on - holding on (Andre-a)  
This is where you need to be
