

# Michael W. Smith, Escape Your Love

It's like starin at the sky above  
When I look in your eyes  
Now where in the world did you come from?  
You're so beautiful  
And I know

I can't escape your love  
Escape your love  
Escape your love  
I can't escape your love  
Escape your love  
Escape your love

Everytime I turn around you're there  
I get a feelin' that won't go away  
Nothing else in this whole world compares  
You're surrounding me  
And I know

That I can't escape your love  
Escape your love  
Escape your love  
I can't escape your love  
Escape your love  
Escape your love

And in the righteous crowd  
Your face is all I see  
I hope you know by now  
That I just can't escape  
I can't escape your love  
Escape your love  
Escape your love  
I can't escape your love  
Escape your love  
Escape your love  
Oh yeah
