

# Michael W. Smith, Fly To The Moon

Fly to the moon  
Well, you could do it if you wanted to  
Try flying high  
The only limit is the endless sky  
So, go on and fly to the moon

Live in the sun  
You know your living has just begun  
So much ahead  
Don't let the night leave you for dead  
So, come on, live in the sun

Fly to the moon  
And when you find your wings I will celebrate with you  
Watch you as you soar  
Take the wishes that are yours  
And let them fly you to the moon

Dream on a star  
You can let it take you near or far  
Feet on the ground  
Don't let anybody hold you down  
So, go on and dream on a star

Fly to the moon  
And when you find your wings  
I will celebrate with you  
Watch you as you soar  
Take the wishes that are yours  
I know you can fly to the moon  
You can do all things  
I will celebrate with you  
It's hard to let you go  
Still, you have to go,  
I know

So go on, fly to the moon  
And as you spread your wings  
I will celebrate with you  
Hope we taught you good  
Hope you know that if I could  
I would fly away with you

Gotaa take it all the way  
When you follow dreams  
Follow far  
Flying high and away  
You're flying all the way  
To the moon
