

# Michael W. Smith, Human Spark

God, for the love of me  
I don't know why  
We hurt each other  
In the name of what is right  
Oh what we think is right  
God, for the life of Man's inhumanity to man

(Chorus)  
There's a river of sorrow  
Running thru my heart  
Thru the long night I will follow  
The light in the dark  
Lord, You are the human spark

God, for the life of me  
I cannot explain  
How people born of love  
Lose their way to hate  
Oh there's got to be a better way
