

Michal, Life Without Me

I've been thinking to myself (to myself)
I might have to try some things (try some things)
To take my mind off this troubled world (troubled world)
Take my mind off these troubled times (troubled times)

Now my back is to the wall (to the wall)
Now my heart is not in me (not in me)
Now lets see what I can find (I can find)
I wanna get out
I wanna get out!

Sugar won't sweeten what I have to say

So take this time (take this time)
To imagine life without me, honey
When all your threats I've realized
Tell me, who's gonna dry your eyes?
Who's gonna dry your eyes?

Everybody knows about (knows about)
All the things you put me through (put me through)
Don't think that they'll side with you (side with you)
Now that I am done with you (done with you)

Now my back is to the wall (to the wall)
Now my heart is not in me (not in me)
Now lets see what I can find (I can find)
I wanna get out
I wanna get out!

Sugar won't sweeten what I have to say

So take this time
To imagine life without me, honey
When all your plans are compromised
I'm not gonna sympathize
Not gonna sympathize

Take this time (take this time)
To imagine life without me, honey
When all your threats are realized
Tell me, who's gonna dry your eyes?
Who's gonna dry your eyes?

You're covered up in snow, I can warm you
You're covered up in ice, I can warm you up
You're covered up in snow, I can warm you
You're covered up in ice, I can warm you up

Oh, oh

Take this time
To imagine life without me, honey
When all your plans are compromised
I'm not gonna sympathize
Not gonna sympathize

Take this time (take this time)
To imagine life without me, honey
When all your threats are realized
Tell me, who's gonna dry your eyes?
Who's gonna dry your eyes?
