

Michelle Branch, U Get Me

So I'm a little Left of center
I'm a little out of tune
Some say i'm paranormal
and so I just bend their spoon
Who wants to be ordinary
in a crazy, mixed-up world
I don't care what they're saying
as long as I'm your girl

Hey, you are on my side
and they, they just roll their eyes

chorus*
You get me
when nobody understands
you come and take the chance, baby
You get me
You look inside my wild mind
never knowing what you'll find
and still you want me all the time
yeah, you do
you get me

So what if I see the sunshine
in the pouring rain
Some people they think I'm crazy
but you say 'it's okay'
You've seen my secret garden
where all of my flowers grow
In my imagination
anything goes

I, I am all you want
They, they just read me wrong

*chorus
You get me
when nobody understands
you come and hold my hand, baby
You get me,
you look inside my wild mind
never knowing what you'll find
and still you want me all the time
yeah, you do
'cos you get me

Hey, you were on my side
They, they just roll their eyes

yeeaaa...

chorus*
You get me
when nobody understands
you come and take the chance
You get me
when none of the pieces fit
you make sense of it
