

Michelle Gurevich, Goodbye My Dictator

You'll never get love by force
The truth will always take its course
Some people really have no shame
It's just an illness with a name
We were having too much fun
Drinking coffees in the sun
Someone wanted to be king
Came and fucked up everything
Goodbye my dictator, goodbye
Cause everybody knows it's time
You've had more than your share of pie
Goodbye my dictator, goodbye
It's hard for most to understand
That good intentions not all have
Why must we always stand on guard
When there is love and there is art
We were having too much fun
Drinking coffees in the sun
Yesterday life was divine
But now we're going back in time
So goodbye my dictator, goodbye
Cause everybody knows it's time
You've had more than your share of pie
Goodbye my tormentor, goodbye
Goodbye my dictator, goodbye
Cause everybody's sick and tired
We'll all be dancing when you die
Goodbye my dictator, goodbye
Goodbye my dictator, goodbye
Cause everybody knows it's time
You've had more than your share of pie
Goodbye my tormentor, goodbye
Goodbye my dictator, goodbye
Cause everybody's sick and tired
We'll all be dancing when you die
Goodbye my dictator, goodbye
Goodbye my dictator, goodbye
Goodbye my dictator, goodbye
