

# Michelle Gurevich, Goodbye My Dictator

You'll never get love by force  
The truth will always take its course  
Some people really have no shame  
It's just an illness with a name  
We were having too much fun  
Drinking coffees in the sun  
Someone wanted to be king  
Came and fucked up everything  
Goodbye my dictator, goodbye  
Cause everybody knows it's time  
You've had more than your share of pie  
Goodbye my dictator, goodbye  
It's hard for most to understand  
That good intentions not all have  
Why must we always stand on guard  
When there is love and there is art  
We were having too much fun  
Drinking coffees in the sun  
Yesterday life was divine  
But now we're going back in time  
So goodbye my dictator, goodbye  
Cause everybody knows it's time  
You've had more than your share of pie  
Goodbye my tormentor, goodbye  
Goodbye my dictator, goodbye  
Cause everybody's sick and tired  
We'll all be dancing when you die  
Goodbye my dictator, goodbye  
Goodbye my dictator, goodbye  
Cause everybody knows it's time  
You've had more than your share of pie  
Goodbye my tormentor, goodbye  
Goodbye my dictator, goodbye  
Cause everybody's sick and tired  
We'll all be dancing when you die  
Goodbye my dictator, goodbye  
Goodbye my dictator, goodbye  
Goodbye my dictator, goodbye
