

Michelle Gurevich, Music Gets You Girls

Music gets you girls
It's true, I can assure
I may not look like much on the street
But once they hear me sing
Mission complete

If you're of average look
You've got to find another hook
For every twenty hours you invest
I guarantee an hour with the best
So get to work my ugly friend
Find a guitar and start a band

We all need love
Whatever works
The truth it hurts
Music gets you girls

The ones who are beautiful and tall
They don't need to do anything at all
And who can blame them it's not their fault
But the rest of us gotta hustle with charm

I used to work at an office job
And let me tell you the nights were long
Now I sing and play guitar
And the world has opened legs and all

So get to work my ugly friend
Find a guitar and start a band
We all need love
Whatever works
The truth it hurts
Music gets you girls
The truth it hurts
Music gets you girls
