

Michelle Poe, When Did You Know

Did you know when you holding me
by that fire in jackson hole
that you were gonna let me go
Did you know when we were flying home
I was fallin hard for you
I believed you were the one
Were you only having fun

When did you know
We werent lookin at forever
How could we be so close
And still not be together
Every dream, i believed
Has now come down to just one question
When did you know it wasnt love
When did you know it wasnt me

How can you make someone feel that way
While you never feel a thing
Why did you do that to me
How can you keep your heart set on freeze
While you set my soul on fire
I dont understand it yet
Im still tryin to catch my breath

When did you know
We werent lookin at forever
How could we be so close
And still not be together
Every dream, i believed
Has now come down to just one question
When did you know it wasnt love
When did you know it wasnt me
